

Quick Tips - Provider Focus

At MHS, we value everything you do to deliver quality care to our members – your patients – and ensure they have a positive healthcare experience. Below are some tips you can follow to improve on the four quality measures listed below:

Getting Needed Care

- For urgent specialty appointments, office staff should help coordinate with the appropriate specialty office.
- If a patient portal is available, encourage patients and caregivers to view results there.

Getting Care Quickly

- Maintain an effective triage system to ensure that frail and/or very sick patients are seen right away or provided alternate care via phone and urgent care.
- For patients who want to be seen on short notice but cannot access their doctor, offer appointments with a nurse practitioner or physician assistant.
- Ensure a few appointments each day are available to accommodate urgent visits.
- Address the 15-minute wait time frame by ensuring patients are receiving staff attention.
- Keep patients informed if there is a wait and give them the opportunity to reschedule.

Care Coordination

- Ensure there are open appointments for patients recently discharged from a facility.
- Integrate PMP and specialty practices through EMR or fax to get reports on time.
- Ask patients if they've seen any other providers. If you are aware specialty care has occurred, please mention it and discuss as needed.
- Encourage patients to bring in their medications to each visit.

Rating of Health Care

- Encourage patients to make their routine appointments for checkups or follow up visits as soon as they can – weeks or even months in advance.

**Quality care
is a team effort.
Thank you for
playing a
starring role!**
